SUMMARY

Junior backend developer with hands-on experience building REST API endpoints in Python and Flask during two internships. Comfortable writing SQL queries and collaborating using Git and Agile practices.

SKILLS

Python, Flask, SQL, Git, REST APIs, Communication, Teamwork

EXPERIENCE

Backend Engineering Intern, Brightline Analytics (Summer 2025)

- Built REST API endpoints in Python and Flask for an internal reporting tool
- Wrote SQL queries against a PostgreSQL database
- Used Git for version control and code review

Software Engineering Intern, Northgate Software (Summer 2024)

- Took part in Agile team ceremonies (standups, sprint planning)
- Fixed bugs and wrote unit tests in an existing Flask application

EDUCATION

B.S. in Computer Science, State University (2026)
